

KA107 - Higher education student and staff mobility between Programme and Partner Countries

Accreditation Section

If you are applying on behalf of a consortium, you will be asked to introduce the reference of your ERAPLUS-ERA-CONSORTIA Higher Education Mobility Consortium Certificate. If you do not have this certificate yet, you will be able to indicate that you have applied for it.

Main Activities Section

You will be asked to enter the different outgoing and incoming mobility activities for each of the Partner Countries with which you intend to cooperate. If you choose “incoming”, the country of destination will be automatically prefilled with your country.

When filling in the activity table, remember to indicate the TOTAL duration of each planned mobility flow for ALL participants. For example, if you send 2 members of staff from Sweden to Chile for 16 days each, in the activity table, you should indicate the TOTAL duration for both staff: 32 days (28 days + 4 days travel). The budget will then be calculated automatically.

Bear in mind that, due to limited budget availability, National Agencies may limit: i) mobility flows in (a) particular degree level(s) (for example limiting applications to one or two cycles only – first, second or third cycle); ii) mobility for staff only or students only, iii) the duration of mobility periods. Please consult your National Agency's website to find out if any of limitations apply: http://ec.europa.eu/programmes/erasmus-plus/tools/national-agencies/index_en.htm

If you know the city of origin and the city of the venue for all mobility activities in a flow and they are the same for all mobility activities in that flow, you will introduce the travel distance between those cities; if there are several cities of origin and/or venue in a flow, you will introduce the average of the different travel distances. If the city of origin or the city of the venue is not yet known, you will introduce the travel distance from/to the capital of that country. Please use the distance calculator available here: http://ec.europa.eu/programmes/erasmus-plus/tools/distance_en.htm

Quality Questions Section

The name of the Partner Countries indicated in the “Activities’ details” table will appear automatically in the “Quality Questions” section. For each of these Partner Countries, the applicant organisation will be asked to answer four questions relating to i) the relevance of the strategy, ii) the quality of the cooperation arrangements, iii) the quality of project design and implementation and iv) its impact and dissemination. The names of the higher education institutions in each partner country, with which the applicant will organise mobility, should be indicated in the answer to the first qualitative question (relating to relevance). This section is crucially important as it will determine which projects will ultimately be selected.
