The study visit is addressed to participants within the field of school education (pre-primary education, children aged 0 to 6 years) interested in incorporating new perspectives in Early Childhood Education and Care and exchanging and developing good practices.

**Context:** Early Childhood Education and Care (ECEC)

ECEC delivery played a prominent role in the achievement of some of the objectives set in the strategic **framework for European cooperation in education and training** ("ET 2020"):

- **Improve the quality and efficiency of education and training;**
- **Promote equity, social cohesion,** and active citizenship;
- **Enhance creativity and innovation,** including entrepreneurship, **at all levels of education and training.**

ET 2020 also supported the achievement of the following benchmark **at European level by 2020**: at least **95% of children should participate in early childhood education.**

On the other hand, the Eudydice Report on Early Childhood Education and Care in Europe (2019 Edition) reveals that there is still some way to go before the policies necessary to ensure quality in the key dimensions of ECEC are firmly embedded in all European ECEC systems. Universal access, high quality and integration of ECEC services have not yet been achieved in many European countries.

In accordance with all this, it seems appropriate to promote activities where participants can observe and discuss different perspectives and approaches towards a better delivery of all the agents involved in ECEC.

#### **Themes and goals of the event:**

Expert presentations on:

- The ECEC model in Spain and Comunidad Valenciana (framework, curriculum, staff education and training, management models, etc.).
- Methodologies, approaches and pedagogical initiatives.
- Learning settings: non-formal learning, children outdoor education, multifunctional spaces, ECEC in rural environments, etc.
- Combating child poverty and social exclusion and providing all children with equal opportunities.

#### **Expected results:**

- Get new perspectives and insights from discussions and good practices observed.
- Exchange of experiences.
- Study visits to educational institutions in Valencia.
- Networking and inspirational ideas for future projects.
